

A.1 Connection Application Forms for Type A Power Generating Facility (< 50 kW) (Form A1-1) and Small Generation Installations (Form A1- 2)

Form A1-1 : Application for connection of Power Generating Module(s) with Total Aggregate Capacity <50 kW 3-phase or 17 kW single phase

For **Power Generating Modules** with an aggregate capacity < 50 kW 3-phase or 17 kW single-phase, this simplified application form can be used. For **Power Generating Modules** with an aggregate capacity > 50 kW 3-phase, the connection application should be made using the Standard Application Form (generally available from the **DNO** website).

If the **Power Generating Module** is **Fully Type Tested** and registered in the ENA Type Test Verification Report Register, this application form should include the **Manufacturer's** reference number (the Product ID).

If part of the **Power Generating Module** is **Type Tested** and registered with the ENA Type Test Verification Report Register, this application form should include the **Manufacturer's** reference number (the Product ID) and Form A2-1 or A2-2 or A2-3 (as appropriate) should be submitted to the **DNO** with this form.

If the **Power Generating Module** is neither **Fully Type Tested** or **Type Tested** then and Form A2-1 or A2-2 or A2-3 should be submitted to the **DNO** with this form. Alternatively the Standard Application Form should be submitted instead of this form.

To: SSEN (Southern Electric Power Distribution) DNO

SSEN Distribution, Inveralmond House, 200 Dunkeld Road, Perth, PH1 3AQ

Generator details:

Generator (name)	Dovecote Systems Ltd
Address	179 King Georges Avenue, Southampton
Post Code	SO15 4LD
Contact person (if different from Generator)	Matt Brander
Telephone number	07763 726307
E-mail address	matt.brander@gmail.com
MPAN(s)	2000022678841

Installer details:

Installer	Solent Renewables Ltd
Accreditation / Qualification	NICEIC / NAPIT
Address	63 Shanklin Road, Shirley, Southampton

Post Code		SO15 7RG							
Contact person		To be completed by installer							
Telephone Number		07833 311577							
E-mail address		To be completed by installer							
Installation details:									
Address		179 King Georges Avenue, Southampton							
Post Code		SO15 4LD							
MPAN(s)		2000022678841							
Details of existing Generating Units – where applicable:									
Manufacturer	Approximate Date of Installation	Technology Type	Manufacturer's Ref No. where available	Generating Unit Registered Capacity (kW)					Power Factor
				3-phase units	Single Phase Units				
					PH1	PH2	PH3		
Details of proposed additional Generating Unit(s):									
Manufacturer	Approximate Date of Installation	Technology Type	Manufacturer's Ref No. where available	Generating Unit Registered Capacity (kW)					Power Factor
				3-phase units	Single Phase Units				
					PH1	PH2	PH3		
FoxESS	May 2026	Battery Energy Storage System (BESS)	KH10.5HV		10.5				1.0
Balance of multiple single phase Generating Units – where applicable									
I confirm that design of the Generator's Installation has been carried out to limit output power imbalance to below 16A/phase, as required by EREC G99.									
Signed :				18 May 2026					

Use continuation sheet where required.

Record **Generating Unit Registered Capacity** kW at 230 AC, to one decimal place, under PH1 for single phase supplies and under the relevant phase for two and three phase supplies.

Detail on a separate sheet if there are any proposals to limit export to a lower figure than the aggregate **Registered Capacity** of all the **Generating Units** in the **Power Generating Facility**.
